

## Custom Engineered Agitation Solutions

The MixPro™ line of portable top entry agitator provides customers with a versatile agitation source for high production industrial environments. Available as a clamp mount, flange mount or plate mount, these rugged gear driven units have proven themselves as a reliable piece of process equipment for small batch tasks. The compact design of the 'SM' unit enables personnel to easily relocate the agitator.

This established MixPro™ design is widely recognized by industry as a leader in portable top entry agitation equipment.

Built to handle the toughest environments MixPro™ agitators have proven themselves time and again in high production manufacturing environments where quality and performance are paramount. Our quality assurance process tests every mixer to withstand the harshest conditions and perform to specification.

## Features & Benefits

- The robust non-proprietary gearing allows for a rugged, economical agitation solution.
- Optional mounting configurations (clamp, flange, plate) and tank sealing solutions (packed, mechanical, lip) are available upon request.
- The wet end is designed to match the process requirements and is available in a wide variety of metallurgies.
- The agitator drive has a minimum mechanical service factor of 1.5
- Available in power range from fractional to 3 hp and in a variety of voltages.
- Lubricated for life bearings and reducer.
- Quick deliveries.
